

Mather LifeWays Institute on Aging in Partnership with the Georgia Institute on Aging
Emergency Preparedness
(a three-part webinar series)

Natural and man-made disasters directly impact senior residences and long-term care communities. This webinar series is designed to equip senior living and long-term care professionals with the core competencies of preparing a disaster plan, properly implementing the plan, and returning to normalcy after a disaster.

Getting Ready

This webinar explores what needs to be done to prepare your senior living or long-term care community to respond to any natural or man-made disaster or emergency.

This session focuses on:

- key elements of effective disaster preparedness
- preparing your staff and residents for a disaster or emergency
- developing a comprehensive disaster preparedness plan that focuses on the “all-hazards” approach to surveillance, response, mitigation, and recovery

Weathering the Storm

This webinar will explore the steps necessary to properly implement your disaster plan.

This session focuses on:

- executing the Incident Command System
- sheltering in place
- implementing an evacuation

Putting Your Community Back Together

Your community has weathered the storm; now it is time to return to normalcy.

This session focuses on”

- providing support and/or interventions to ease the trauma of the disaster or emergency
- evaluating the lessons learned
- updating your disaster plan based on what you learned

Three-part webinar series, \$250 per organization

Individual webinars, \$95 per participant

3-Part Sessions: August 3, 10, & 17

2:00 pm – 3:00 pm

One CEU is provided for each webinar (three for the series) for NHAs and SWs
